What Is It All About?

In the 1980s, the sky was colored by neon lights and the air smelled like hairspray. A hardworking ranch hand, Oxa Boscova, and a daydreaming carpenter, Gold Prospector, meet up for a blind date. Things seem fine until Oxa sees a distant explosion on the ranch where she works. When Oxa runs toward a bright light in the sky, Gold follows close behind. This ordinary date is about to become a terrifying fight for survival!

Guardians And Metal Exterminators introduces new gameplay elements never before seen in the series! Play as a variety of unique, quirky characters, as well as monsters from across the Silver Falls series. Take on a variety of missions with a range of challenges to earn powerful weapons and skills. Customize your weapons, power up your characters, and chill to the vibe of totally sick 80s beats.

Monsters have their own unique sets of abilities, weapons, and traits. Players can even upgrade and level monsters, just like the human playable characters.

Use the Code Linker system to move characters from other Silver Falls titles into Guardians and Metal Exterminators for use as playable characters. Even monsters from other Silver Falls titles will be playable as well!

Missions can range for quick and easy, to adrenaline-pumping challenges. Players customize characters with a range of weapons. In battle, mix up attacks by switching between weapons to build devastating custom combos. Build up character load-outs with dozens of powerful skills to take on a range of mission challenges.
